Prerequisites:

This program is for **Anyone** interested in becoming a PALS Instructor. Students must have a current provider card in the topic(s) they wish to become an instructor in and have completed the AHA's Core Instructor Program.

Upon completing this program, the student will be eligible to be mentored as an PALS Instructor for the American Heart Association

Becoming an instructor in any American Heart Association program is a three step process:

Step one is completing the Core Instructor Program.

Step two is completing the discipline specific program.

Step three is completing a monitoring/mentoring program.

The American Heart Association strongly promotes knowledge and proficiency in BLS, ACLS and PALS and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the American Heart Association and any fees charged for such a course do not represent income to the Association
