The Family & Friends program is designed for those caring for infants, children and adults, such as family members, babysitters, and others providing in-home care, but who do not require course completion credential.

The Family & Friends CPR program teaches how to perform CPR on adults, children, and infants.

The Family & Friends First Aid for Children teaches how to manage illness and injuries in a child for the first few minutes until professional help arrives.

The American Heart Association strongly promotes knowledge and proficiency in BLS, ACLS and PALS and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the American Heart Association and any fees charged for such a course do not represent income to the association
