www.harthosp.org/emseducation

Prerequisites:

Candidates must have and submit a copy of a current AHA Healthcare Provider CPR card when they register.

This program is designed for healthcare providers whose daily occupations demand proficiency & knowledge in the skills of Pediatric Advanced Life Support. The PALS course is designed to review, organize, and prioritize information and skills needed to manage a pediatric cardiac arrest, and the time period immediately before and after cardiac arrest.

The American Heart Association strongly promotes knowledge and proficiency in BLS, ACLS and PALS and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the American Heart Association and any fees charged for such a course do not represent income to the association.

Cancellation or changing enrollment in class five or less days prior to class will result in a \$25 administrative fee being charged.

Refunds for cancellations will be made upon return of course material.
