

2011 SUMMER STUDENT RESEARCH PROJECTS

Adam Abel

Cell Carcinoma Vs. Chronic Kidney Disease: Balancing the Risk of Metastasis and Renal Insufficiency in Patients Considering Nephrectomy or Active Surveillance

SI: Steve Shichman, MD

Department: Urology

Kevin Abraham

Entereg Laparoscopic Colon Resection Study

SI: Kristina Johnson, MD

Department: Colorectal Surgery

Jaime-Lynn Bernstein

Analysis of Preventive Care Services Provided by a Hospital-Based Primary Care Center

SI: Cunegundo Vergara, MD

Department: Primary Care

Alissa Correll

Identifying Potential Barriers to Exclusive Breast Feeding

SI: Amy Johnson, MD

Department: Women's Health

Tyler Cottrell

Pelvic Lymph Node Dissections During Robotic-Assisted Laparoscopic Prostatectomy: Biochemical Recurrence and Complication Rates

SI: Stuart Kesler, MD

Department: Urology

Emily Davis

Neonatal Outcomes Following Delivery at <39 Weeks With an Immature Lamellar Body Count, but a Mature L/S or P/G Ratio

SI: Yu Ming Fang, MD

Department: Prenatal Testing

Jamie-Marie DeFelice

Cardiac Work-Up in Patients Undergoing Bariatric Surgery

SI: Pavlos Papasavas, MD

Department: Bariatric Surgery

Melanie Dubois

Simulation in Graduate Medical Education: Are Medical Toxicology Fellowships Using Simulation to Fulfill the ACGME Core Competencies?

SI: Charles McKay, MD

Department: Toxicology

2011 SUMMER STUDENT RESEARCH PROJECTS

Brendan Gontarz

Circulating Levels of Apoptotic and Inflammatory Biomarkers
In Patients with Systolic and Diastolic Heart Failure

SI: Detlef Wencker, MD

Department: Cardiology Heart Failure

Adam Korus

Correlating Prostate Cancer Volume on Biopsy with
Final Cancer Volume

SI: Joseph Wagner, MD

Department: Urology

Daniel Kowalski

Racial and Ethnic Determinants of Cause Specific Recurrence and Survival in Breast Cancer

SI: Andrew Salner, MD

Department: Oncology

Daniel Liebman

Characteristics of Utilization of Carbon Monoxide Detectors
In Residential Settings

SI: Kelly Johnson-Arbor, MD

Department: ED/Wound Center

Claire Melley

Analysis of Imaging Findings and Outcomes Following
Acute Stroke Intervention

SI: Martin Ollenschleger, MD

Department: Neuro/Stroke Center

Andrew Polio

Combined Liver Kidney Transplants: Indication, Outcome Analysis
and the HHLTP Experience

SI: David Hull, MD

Department: Transplant

Jeffrey Weinreb

Aspirin-Related Complications of External Ventricular Drain Placement

SI: Inam Kureshi, MD

Department: Neurosurgery

Hillary Whelan

The Impact of Fecal Incontinence Versus Urinary Incontinence
on Quality of Life

SI: Paul Tulikangas, MD

Department: Urogynecology
